

There's an easier way to protect your appliances

The easiest way to protect your equipment is just to plug in the Sollatek Hivoltguard, sit back and let it take over all your protection worries.

Hivoltguard is fully automatic and will cut-out and reconnect at the safest time, making it the easiest way to protect your appliances.

HIVOLTGUARD

No more silence during your favourite radio station or CD track, Sollatek Hivoltguard is music to your ears, protecting your equipment and making life worry-free. Hivoltguard will take charge of your voltage fluctuations easily and safely, just plug it in and sit back and listen.

Protects against: • Spikes/surges • Powerback surges • Basic lightning • High voltage
